Seeking a challenging role for an entry-level position as a software developer. I am looking to gain experience and I have a great desire to be a contributing member of a team.

Education

AUGUST 2014 - DECEMBER 2018

Bachelor of Science in Computer Science / University of North Texas, Denton, Texas

- Dean's List (Fall 2014, Fall 2018)
- GPA: 3.5

- Software Engineering, Algorithms & Data Structures
- Internet Programming, Human Computer Interfaces, Database Systems

---

Experience

Webmail Client / Web App

- Register, Login and link with other email accounts.
- Send, Receive, Favorite, and Delete messages.
- Created with HTML, Bootstrap, PHP and jQuery.

Food Ordering App / Android App

- Created wireframes, prototypes, and conducted user testing.
- Register, Login, Create an order, Favorite an order, Save an order, and View recent orders.
- Created with XML and Java.

Parking Lot API / API

- Allows users to see and report the number of parking spaces open in any specific university lot.
- Connected to Traffic API to see traffic conditions around the university.
- Created HTML, Bootstrap, Node.js, DynamoDB and deployed on AWS.

Peg Solitaire Solver / Console App

- Small program which solves the Cracker Barrel Triangular Peg Puzzle.
- Prints out the first five solutions.

Skills

- HTML, CSS, SCSS, JavaScript, PHP
- C++, C, Python, SQL, Git

- Bootstrap, jQuery, React
- Windows, Linux
